

OVER THE SEAS AND FAR AWAY

**Chorus:- " Over the seas and far
away**

**The call of the sea caused me to
stray**

So far from home and family

I only ask - " Remember Me "

Britain needed us they said

The seagulls cries they on us led

**Out there we earned each crust of
bread**

**And now we are your Honoured
Dead.**

Over the seas and far away

**The call of the sea caused me to
stray**

So far from home and family

I only ask - " Remember Me "

**We strived with all our might and
main**

To bring our cargoes home again

Food and weaponry supplied

Laid down our lives, so many died.

Over the seas and far away

**The call of the sea caused me to
stray**

So far from home and family

I only ask - " Remember Me "

So here we lie in a watery grave

**" Not all returned " - though many
saved**

Remember us - Remember well

We are the ones who gave our all.

Over the seas and far away

**The call of the sea caused me to
stray**

So far from home and family

I only ask - " Remember Me ".
